President Geoffrey S. Mearns

President Geoffrey S. Mearns became the 17th president of Ball State University in May 2017.

President Mearns is honored to serve as president during Ball State’s Centennial year. He has enjoyed attending numerous Centennial events as part of the year-long celebration of this milestone anniversary.

Under President Mearns’ leadership, the University has developed a new strategic plan. Destination 2040: Our Flight Path was approved by the Board of Trustees in December, 2018. The plan provides a strategic framework for the University, with five long-term goals and a set of imperatives to be executed by 2024.

President Mearns is committed to advancing the University’s relationship with the community. At his installation in September 2017, he launched the “Better Together” initiative. A highlight of this enhanced support for Muncie is the University’s partnership with Muncie Community Schools.

President Mearns earned his undergraduate degree in English from Yale University and a JD from the University of Virginia. After a legal career that included serving as a federal prosecutor, President Mearns began his career in higher education. Prior to coming to Ball State, he served in academic and administrative roles at Cleveland State University and as president of Northern Kentucky University.

Ball State University
About Ball State

The Ball State University tradition of innovation and entrepreneurship is rooted in the late 19th century, when Muncie business leaders envisioned a local college to help boost the city's development. Among the visionaries were Frank C. Ball and his brothers, young New York industrialists who moved to Muncie looking to expand their glass container business. A small, private teacher training school opened in 1899.

After the community's efforts to sustain the college failed, the Ball brothers purchased the land and buildings of the defunct institution and donated them to the State of Indiana. This gift became the Indiana State Normal School Eastern Division, which opened in 1918 to meet Indiana's need for more and better teachers.

In recognition of the Ball family's generosity, the Indiana General Assembly changed the school's name to Ball Teachers College in 1922 and then Ball State Teachers College in 1929. The winged statue Beneficence stands on the campus as a tribute to the family. This and other landmarks from Ball State's early years are featured in our historical walking tour of the Old Quadrangle.

Situated in a residential area about one mile northwest of the business center of Muncie, Indiana, the 731-acre campus reflects a harmony of past and present. Tudor Gothic is the prevailing architectural style of the older, ivy-clad buildings shaded by native trees. More recently constructed buildings are in contemporary, functional design. The statue Beneficence was erected as a civic memorial to the Ball family and has become a symbol of the generosity of all who have contributed to the development of Ball State. Campus includes 106 academic, administrative, auxiliary, and residential buildings.

**MISSION:** We engage students in educational, research, and creative endeavors that empower our graduates to have fulfilling careers and meaningful lives enriched by lifelong learning and service, while we enhance the economic, environmental, and social vitality of our community, our state, and our world.

**VALUES:** To fulfill our mission, to achieve our goals, and to implement our strategic imperatives, we are guided by the enduring values represented by Beneficence:

**Excellence** We commit to excel in all that we do.

**Innovation** We commit to be creative, responsive, and progressive.

**Courage** We commit to set ambitious goals and to take the risks necessary to achieve those goals.

**Integrity** We commit to be honest, ethical, authentic, and accessible.

**Inclusiveness** We commit to respect and embrace equity, inclusion, and diversity in people, ideas, and opinions.

**Social responsibility** We commit to act for the benefit of society at large.

**Gratitude** We commit to express appreciation to others and to demonstrate our gratitude through our actions.

I’m New. What Do I Do?

As you embark on your exciting new career at the university, you undoubtedly have numerous questions such as, "When do I get paid?" or "Whom do I call to change my name and/or address?" We understand that the first days, weeks, and months of employment are filled with excitement, a wealth of information, and many questions. As you embark on your exciting new career at the university, we want to assure you that we’re here to help and support you as needed to help you succeed in your new role.

The following links and information provide answers to the questions you may have. Visit the University Human Resource Services web pages often for updates.

Before You Start:

- Expect a call from your manager/department head/human resource representative:
  - Confirm start date, time, place, parking, dress code, etc.
  - Discuss your computer needs, and/or special accommodations.
- Review your benefits options.
- Check what hire documentation, including proof of eligibility to work in the United States, you will need to bring with you on your first day of work.
- Review a campus map and familiarize yourself with key buildings, landmarks, and parking areas.

Your First Days:

Partner with your manager to identify your initial assignments: the purpose of your work; how it fits into your department’s or school’s overarching mission and goals; and how you can begin making immediate contributions. The following are a few things you will need to take care of on your first days on the job.

Schedule, Job Duties, and Expectations

- Purchase your parking permit on or before your first work day after you have been given your employee ID number. You may elect to pay for your permit through payroll deduction. Parking Services will issue a temporary permit for you to use until your permanent permit arrives in the mail. Follow the permit instructions on where to park, and how/where to display your permit. Invalid parking will result in a ticket.
- Be prepared to meet co-workers on the first day.
- Clarify your first week’s schedule and confirm required and recommended training.
- Ask your manager for an overview of the functional area—its purpose, organizational structure, and goals.
- Review your job description, outline of duties, and expectations. Ask how your job fits in the department, and how your job and department contribute to your division/school and the university.
- Review hours of work. Ask questions about policies and procedures for overtime, use of vacation and sick time, holidays, as well as any flexible work policies or procedures.
- Set up your personal workspace.
- Ask questions, if any, on benefits, and important deadlines.
- Attend the in-person New Employee Orientation session on the date, time, and location you are given.

The list of acceptable documents that can be presented is available online. Please follow the link at the bottom of the web page.

Sick leave may be used in full-day (8 hour) or half day (four hour) increments.
For the fiscal year in which employment begins, sick leave days are calculated as follows:

- Use pre-tax dollars for retirement planning.
- Invest pre-tax dollars in options for accumulation of benefits.

BSU Communications Center
The Communications Center is the web site to visit to stay informed about news and events on Ball State’s campus.

From important announcements to the details you need to know about campus events, the Communications Center delivers. It’s the news and information you need and it’s all right here — in one convenient location — ready for you.

View the latest postings to the Communications Center on the home page or browse by category. To manage the number of communications you receive, unsubscribe from those mailings through the Communications Center site. If you have questions, see our Frequently Asked Questions page or e-mail them at commcenter@bsu.edu.

Communications Center Campus Bulletin Board
A common area for Ball State students and employees to post and view messages for items they are searching for or want to sell. This category also provides faculty and staff the opportunity to generate positive campus news and for the campus community to advertise and/or seek carpooling opportunities. The "For Sale/Lease" and similar open publishing categories in the Communications Center are intended for use of a personal nature. It is a violation of university policy to use the system for commercial use, financial gain, or profit. Examples of appropriate use: selling a few tickets, subleasing an apartment, selling a used bike or iPod. Examples of inappropriate use: promoting a ticket scalping business, advertising of an apartment complex or house that you own as a business, selling hard goods for more than they were purchased. EXPIRATION DATE FOR ITEMS: Given the quantity of content published to the "Wanted," "For Sale or Lease," and "Lost & found" categories, all messages created in these categories will expire three weeks after they have been created in the Communications Center.

Notification of Annual Security Report
The Higher Education Act, as amended by the Higher Education Opportunity Act, requires Title IV institutions annually to make available a Campus Security Report that discloses campus crime statistics, law enforcement, alcohol and drug policies, and emergency response procedures.

For those institutions that maintain on-campus student housing, an annual Fire Safety Report is also required. This report discloses procedures, statistics, reports and documentation on fire safety in on-campus student housing.

Every October, Ball State University makes available those reports here. The current reports are available above as PDFs or by visiting the links on the right side of this page.
Employee Education & Awareness

According to the Drug-Free Schools and Communities Act Amendments of 1989, Ball State University is required to have an alcohol and drug awareness program. Part of this program is to include a biennial review by Ball State University of its program to determine the effectiveness, implement needed changes, and ensure that disciplinary sanctions are consistently enforced. The Guide to Regulations for a Drug-Free Campus is updated and distributed by Working Well to all employees on an annual basis. It is also available on the web.

Health Precautions

Maintaining good health and practicing common-sense hygiene habits are ways to reduce your risk of contracting the flu or spreading it to others. Effective hand washing and proper coughing practices can also help reduce the spread of the flu.

Worker’s Compensation

Questions regarding worker’s compensation or on the job injuries should be directed to UHRS, 285-1834.

Reporting an On-the-Job Injury

**Accident Report Form:** The accident report form to document all on-the-job injuries, Worker’s Compensation First Report of Employee Injury/Illness, can be downloaded and printed from Worker’s Compensation page on the Ball State web site.

Accident reports should be completed by the injured employee’s supervisor and should be forwarded to the Health Center within twenty-four (24) hours of the accident’s occurrence. The Health Center FAX number is 765-285-1103. Regardless of the nature or severity, all injuries incurred when on the job must be reported to supervision at once, during the same shift on which the injury occurred.

Medical Treatment

The Health Center provides and/or directs the medical care for employees injured on the job. The Health Center hours are 8:00 a.m. to 4:30 p.m., Monday, Thursday, and Friday and 9:00 a.m. to 6:30 p.m. on Tuesday and Wednesday. The doors lock and last patients are accepted at 4:30 p.m. and 6:30 p.m. respectively.

Employees injured outside Health Center operating hours who are in need of immediate medical treatment but whose injuries are not so severe as to warrant Emergency Room treatment, should be referred to the US HealthWorks medical clinic on 3911 W. Clara Lane which is open 8:00 a.m. to 8:00 p.m. seven days a week, except major holidays. After Health Center and US HealthWorks hours or due to the severity of the injury, such injured employees should be referred to the IU Health Ball Memorial Hospital Emergency Room which is open twenty-four (24) hours a day every day.

The right to direct the medical treatment of employees injured on the job is retained by the university. Therefore, the decision of when and where to send an employee for medical treatment will be made by the person in charge of the affected employee’s shift based on the nature and extent of the injury. If an employee is referred to US HealthWorks or the Emergency room, the person in charge of that shift who made the referral should leave a voice mail message for Employee Relations at 765-285-1036, so that the University may begin to manage the worker’s compensation claim and verify worker’s compensation coverage when contacted by the medical provider on the next business day.
If an employee is referred outside of the university for emergency treatment, the employee must follow-up at the Health Center the next day the Health Center is open. Although US HealthWorks or the Emergency Room clinics may advise the employee to return there or to his/her personal physician for follow-up treatment, such non-emergency visits are not covered by worker’s compensation.

Departmental Regulations

Continue to follow specific internal departmental regulations for handling and reporting on the job injuries.

**Electronic Devices Policy** *(PDF)*

Electronic devices, including all cellular telephones, data, and email devices are valuable tools to enable staff to fulfill the needs of the university.

**Employee Assistance Program**

The EAP provides confidential assistance to the employee who experiences personal problems which may or may not alter work performance or attendance. If ignored, personal problems can jeopardize an employee's health, have a serious impact on lives or families, and have negative effects on the ability to perform a job. Problems may be the result of alcoholism, drug abuse, emotional or marital problems, parent/child relationships, grief, or other concerns. The decision to seek help and accept treatment is the responsibility of the employee. The university recognizes the need to make the services of the EAP accessible to an employee who requests assistance in overcoming personal problems.
The Adult Physical Fitness Program

The Adult Physical Fitness Program (APFP) was started in the late 1960s by Dr. Bud Getchell and has operated continuously since its inception. The mission of the APFP mirrors the educational, research, and service missions of Ball State University.

The Human Performance Laboratory/Adult Physical Fitness Training Center is located in room 135 of the Ball State University Student Recreation and Wellness Center. We have over 3,500 square feet of fitness space dedicated solely to our members. The APFP is designed for adults who can be classified as low or moderate risk for developing cardiovascular disease (according to national guidelines from health and medical organizations); however, the program does provide services for some individuals with chronic diseases. For specific information about eligibility, please contact the program office.

The APFP provides daily exercise supervision and exercise counseling by trained staff. Members undergo comprehensive health screening and physical fitness testing, from which an individualized exercise plan can be implemented to help members achieve their health and wellness goals. Our program offers morning, midday, and evening hours.

Perks

Payroll Direct Deposit

Effective July 1, 2010, all employees are required to authorize electronic direct deposit of their payroll. Direct deposit is a safe and secure way to have your pay deposited directly into your checking and/or saving account(s). Ball State University will electronically transfer your pay into your choice of bank account(s); the money will automatically be deposited into your account(s) on pay day. Direct deposit offers many advantages over checks, including:

- Security – with direct deposit, you don’t have to worry about lost, stolen or misplaced checks.
- Reliability – you no longer need to wait for your department to pick up and issue your checks. You can have peace of mind knowing your money will always be in your account on time.
- Flexibility – if you decide, you can allocate your payroll into two separate accounts. If you need to switch accounts or financial institutions, it’s easy to change your direct deposit arrangements. You simply need to complete a new Direct Deposit Authorization Form and return it to the BSU Payroll & Employee Benefits (AD 029).

Effective October 1, 2010 direct deposit stubs will no longer be printed by the Payroll & Employee Benefits Office. You can access your direct deposit payroll statement via Employee Self Serve.

Some stories are a joy to share. The creation of the Emens College-Community Auditorium is one of those. It is really not my story but more accurately tells the saga of a need, a visionary, and a supportive community. In many ways this place is the shining example of what can be achieved when the people of Ball State University and Muncie join forces for positive change.

It started with a dynamic leader, President John R. Emens, who had the foresight to recognize that this growing campus as well as our city would benefit if a performance venue could be conceived and developed. This concert hall would be a home to the Muncie Symphony Orchestra. This state of the art performance venue would host national and international artists, Broadway productions, dance companies, and major speakers and serve as a convocation center for many university functions.

The Sursa Performance Hall with a seating capacity of 600 and located in the Music Instruction Building also hosts many events. Tickets for individual performances and season tickets are available through the Auditorium Box Office, 765-285-1539. Pruix Hal, another auditorium-type structure which seats 800 persons, is a multi-performance facility used for lectures, small concerts, recitals, and film presentations. Call 765-285-5524 for additional information.

Shafer Tower The crowning glory of the north end of Ball State's campus, Shafer Tower rises 150 feet in the air from the middle of McKinley Avenue. Charles W. Brown Planetarium

Visit the Charles W. Brown Planetarium at Ball State University and experience the night sky as you have never seen it before. The planetarium is an immersive theater where state-of-the-art technology transforms the 52-foot dome into a simulation of the night sky as seen from Earth and from space. For example, the audience can “fly” through Saturn’s rings, land on Mars, or travel to distant stars and galaxies. By combining real images from spacecraft and telescopes with advanced computer graphics, the possibilities become almost endless.

The planetarium uses a GOTO CHRONOS II Hybrid projector with a RSA Cosmos digital system to display visualizations based on real scientific data. Programs are open to the public, school groups, and Ball State University students.
It all began in 1923, when two students at Indiana State Normal School, Eastern Division (i.e. Ball State’s earliest incarnation) built a “radiophone” in an attic of the Administration Building. A loud speaker in Assembly Hall allowed students to hear radio broadcasts from New York, Chicago, and Dallas.

In 1951, WBST began commercial broadcasting.

Ball State received its first FM transmitter in 1960. The 10-watt FM station was on the air for six hours a day, often silent on weekends and during quarter breaks and holidays. In 1961, a 162-foot, 10-watt tower was erected a short distance east of the WBST studios.

1966: David Letterman was part of a “9-man news team” announcing election returns. (He was later fired for his irreverent treatment of classical music.)

1978: In December, WBST switched to a 3,000-watt transmitter located on a new tower on Nebo Road. In September, before the station implemented the new transmitter, the new tower was struck by lightning – an inauspicious beginning.

1980: On September 12, after more than 50 years of experimentation and twenty years of broadcasting, WBST became a member of National Public Radio with substantially increased support from Ball State University and from the Corporation for Public Broadcasting.

1997 was a most significant year for the station as its expansion plans came to fruition. WBSB 89.5FM (Anderson) went on the air in February. WBSW 90.1FM (Marion) was next, taking to the airwaves in August of the same year. The expansion into a five-station network was then completed in December with the addition first of WBSJ 91.7FM (Portland), and then WBSH 91.1FM (Hagerstown-New Castle), which was added on December 31. On the next day, January 1, 1998, WBST could legitimately go on the air with its new identity as a network: Indiana Public Radio.

WIPB provides quality PBS programming, Award-winning local programing, and offers education outreach campaigns that give a variety of education opportunities derived from PBS programming.
