**Applicant Tracking Module**

**Creating a Hiring Proposal for Tenure-track Faculty (F1) or FT/PT Academic Year Contract Faculty (F3/F2)**

*For FT/PT Semester Contract Faculty hires (F5/F4), do not create a Hiring Proposal; instead, you will create an EPAF.*

1. Verify you are in the ‘Applicant Tracking System’ module in the Hiring Manager user group.

2. Hover over ‘Postings’ and select Faculty.
3. Locate the posting and click the ‘Actions’ menu and choose view applicants.

4. Select applicant you would like to start the hiring proposal for by either clicking on his/her name or using the Actions button at the end of his/her line and selecting View Application. This workflow replaces the EPAF for these types of positions.

5. Click on Start Hiring Proposal in the upper right side of the application:

6. Position should already be selected; if not, click on the button beside the correct position title.

7. Then click Select Position Description.
8. The Hiring Proposal will appear in an editing state so that required fields can be filled in. Click on the applicant’s name to review the summary and make edits if needed.

If you don’t know the information listed as optional below, Human Resources will update the Hire Information once the candidate has verbally accepted the position.

10. The Hiring Proposal Summary allows you to review the hiring proposal and make any necessary edits before you take action on it. Once all fields have been checked and the required fields completed, click on Take Action On Hiring Proposal. You can either keep it at your stage of the workflow if you are waiting on additional information or you can move it to the next workflow state for approval.
11. You will receive a Take Action pop up window which will send an email in Outlook to the next approver to notify him/her an action is pending.
