ADDENDUM NO. D-1

Acknowledge receipt of this Addendum on Section 004300 - Bid Form Supplements (Bid-LD), Appendix A. Failure to do so may subject the bidder to disqualification.

This addendum is issued as a supplement to the plans and specifications and shall be considered an integral part of the same.

<td>This project has Liquidated Damages penalties after the Substantial Completion date. The guardrail contractor who is managed under this Project’s scope is also working under the same terms of liquidated damages.</td>
</tr>
<tr>
<td>D1.3</td>
<td>Drawings Sheet A2-3</td>
<td>Refer to the attached, revised roofing details on Sheet A2-3 that indicate the following: 1. The existing SikaPlan roof membrane is not compatible with pedestal bases and green roofs. The Owner will provide to the contractor the required 60 mil, Sarnafil G410 PVC membrane. The roofing contractor will provide all other roofing materials and accessories as required to install a complete loose- laid roofing system. Weld and seal all perimeter edges and roof drains. All pedestals and green roof areas will also include a protective slip sheet as required by the roofing manufacturer. 2. Delete the two-piece stainless steel flashings at the new stone coping. 3. Where the coping flashings were removed, install one continuous 2x6 at the inside face of the parapet wall. Cover with the new roof membrane. 4. At the north masonry walls and edge of slab remove the existing counterflashing, and replace with new flat metal that meets the requirements for both Sika Sarnafil roof counterflashing and the installation of the paver pedestal bases. Reuse the existing stainless steel receiver. 5. At the full perimeter of the roof pavers install an edge restraint system consisting of a continuous 16 gage minimum, stainless steel angle that is anchored to the top of the pedestal bases. The angle will be used to support the cut edge of tile that cannot be fully supported by the pedestal bases. 6. Update the mastics and sealant requirements at the new stone coping as recommended by Sika Sarnafil. Refer to the attached details.</td>
